

KANHA™

**Kanha Pumpkin Stencil** | Instructions:

(First, cut open the top of the pumpkin and remove all the seeds and filling.)

1. Pin or tape the stencil to your pumpkin. Make sure it's secure.
2. Use a pin to trace the design by poking holes through the stencil.
3. Once the design is traced, remove the stencil and carve out the dotted areas.
4. Once the carving is done, insert a tealight, or LED candle to illuminate the inside!
